PA/QA Engineer (M / F)

ANYWAVES

SPACE, UNMUTED

PA/QA Engineer (M / F)

+ About Anywaves

Anywaves is an international space technology company specialising in antennas, RF electronics, embedded software, avionics and integrated payload subsystems for satellite missions. Building on more than 25 years of engineering heritage, we bring together complementary expertise from our teams in Toulouse, France, Hautscharage, Luxembourg, and Austin, Texas. From design and project management to testing, industrialisation and production, we develop high-performance technologies for commercial and institutional customers worldwide. Our solutions support satellite communication, navigation, Earth observation and other demanding space applications, from individual products to complete RF payload subsystems.

With more than 120 employees representing a wide range of nationalities and technical backgrounds, Anywaves combines the agility and close collaboration of an entrepreneurial company with the capabilities of a growing international group. Joining Anywaves means contributing directly to ambitious space programmes, solving complex technical challenges and helping shape the next generation of satellite technology.

Key Responsibilities:

- o Establishing the PA and Safety requirements baseline for all elements of the project.
- o Produce and implement PA/QA plans.
- o Ensure that materials, mechanical parts, processes and electrical components used to assemble the product shall be fit for purpose over the entire lifecycle.
- o Support design and procurement process (selection, audits, specifications).
- o Organize, manage and lead PA related meetings.
- o Perform or specify and delegate inspections.
- o Control suppliers' deliveries, PCB assembly, Product integration, AIT activities.
- o Follow up non-conformance, manage waivers and deviations, chair NRBs.
- o Maintain all required PA templates, forms and databases.
- o Reporting project PA status (risks, deviations, issues, schedule of PA activities).
- o Support Project Managers with configuration control and data management.

Job Requirements:

- o Over 5 years relevant experience in space sector.
- o ESA documentation experience & ECSS.
- o Experience with working in clean room.
- o Experience with FMECA and radiation analyses.

- o Excellent communications skills both written and oral.
- o Strong analytical and problem-solving skills.
- o Strong quality awareness.

Who We Are Looking For:

- o Master's degree in Engineering required (preferably in Electronics or Mechatronics).
- o Synthetic, coherent and consistent mindset.
- o Excellent team-working skills.
- o Fluency in English is mandatory, French or German are strong assets.

We invite you to submit your CV and cover letter, showcasing your motivation for the position and positive impacts to the company to jobs@anywaves.lu. Expose and demonstrate how your skills align with the job requirements to make a meaningful impact.
