Quality Technician – Electronic Production (M / F)

ANYWAVES

SPACE, UNMUTED

Quality Technician – Electronic Production (M / F)

About Anywaves

Anywaves has been at the forefront in electronics and embedded software for NewSpace applications since 2001, specializing in project management, design, testing, and production. With expertise in digital signal processing, telecommunications, electrical and mechanical engineering, we are driving the future of space technology. With a team of over 55 diverse, international professionals, Anywaves is a dynamic, tightly knit company that thrives on collaboration, creativity, and innovation.

Recently, EmTroniX joined forces with Anywaves, a leading European space antenna specialist, creating a stronger, more integrated space RF, electronics, antennas and payload subsystems group. This merger opens up exciting new opportunities to work on larger, more complex programmes, expanded international markets, and end-to-end satellite payload technology solutions.

About the position

To support this evolution, we are seeking a **Quality Technician** to support quality assurance activities within our electronic production environment. The role involves performing inspections throughout the production lifecycle, ensuring product conformity, supporting non-conformance management, and maintaining compliance with **EN9100** requirements.

Key Responsibilities:

- Perform technical inspections at all stages of production:
  - Incoming inspection
  - In-process inspections
  - Final inspection
- Ensure product conformity with applicable specifications and quality standards
- Support the management of non-conformities, including identification, reporting, root cause contribution, and follow-up
- Participate in quality reviews and contribute to continuous improvement initiatives
- Ensure proper documentation and traceability in line with EN9100 requirements
- Monitor and record environmental parameters (temperature, humidity, particle levels, etc.) to ensure compliance with production constraints

Profile required

- Technician-level education (or equivalent experience) in electronics, quality, or related field
- Good understanding of **EN9100** requirements
- Familiarity with standard quality processes (inspections, non-conformance management, reviews, etc.)
- Strong attention to detail, rigor, and effective time management
- Familiar with usual KPIs
- Fluent in English – French is a strong asset

- Knowledge of **EEE components** (Electrical, Electronic, and Electromechanical) and their lifecycle management would be a plus
- Familiarity with equipment and machinery used in electronic assembly lines
- Methodical and detail-oriented approach
- Strong organizational and prioritization skills
- Ability to work both autonomously and within a team
- Clear and structured communication
- The candidate must be eligible for a “SECRET” security clearance, in accordance with the national regulations as well as EU/ESA/NATO equivalents

We invite you to submit your CV and cover letter, showcasing your motivation for the position and positive impacts to the company to **jobs@anywaves.lu**. Expose and demonstrate how your skills align with the job requirements to make a meaningful impact.

Start: as soon as possible
Contract type: Permanent
Location: Hautscharage, Luxembourg
